

Developing Communications & Social Media Skills Workshops including Production skills for Multicultural Organisations

CMCF will facilitate three workshops to help multicultural organisations and individuals develop a communications and social media strategy to encourage better communications within your communities. There will be opportunities to learn production skills and become familiar with the technology available and the possibilities of multimedia, podcasting, training material development, video streaming and online meetings.

Workshop 1 Developing your own Communication, Social Media and Production skills

When Sunday May 30 2021 1:30 to 3:30pm

Content What social media skills and equipment will suit your organisation? Developing a social media plan and developing your own high quality production skills.

Register for each workshop using the Eventbrite link:
